

FALL 2020 — SPRING 2021

Immunization Webinar Series - FREE!

All on Thursdays, mostly from 12-1 p.m. CDT
CE credit awarded to Nurses, Physicians, Pharmacists

AUGUST 20, 2020 – NOW ON-DEMAND

2 separate webinars on Vaccines for Children (VFC 411)

VFC 411 Immunization Scheduling 11 a.m. - 12 p.m.

Lana Hudanick, RN, BSN, Public Health Nurse Consultant, Bureau of Immunizations, Missouri Department of Health and Senior Services, Jefferson City

This presentation will increase the participant's knowledge regarding recommended immunizations

for children and adolescents, from birth through 18 years of age, as referenced by the Advisory Committee on Immunization Practices. It also will include why the vaccine is needed, vaccine brands with antigens included, at what age the vaccine is recommended and spacing guidelines. Finally, vaccine errors and safety, along with why a provider's recommendation matters, will be discussed. This presentation is recommended for all health care providers, clinic staff or students wishing to learn more about the immunization schedule.

VFC 411 The Basics 12:30 - 1:30 p.m.

Teri Utter, MEd, VFC Consultant, Bureau of Immunizations, Missouri Department of Health and Senior Services, Jefferson City

VFC the BASICS will provide the viewer with an overview of the VFC program such as who is eligible to receive VFC vaccines and how to

screen for eligibility; program requirements for the immunization provider; VFC vaccine ordering and accountability and vaccine storage and handling. Any current VFC providers will meet their required education hours along with the continuing education credit provided. This presentation is recommended for VFC providers and/or any healthcare providers interested in learning more about the VFC program.

OCTOBER 1, 2020 - NOW ON-DEMAND

Influenza Vaccination 12 - 1 p.m.

Christelle Iboudo, MD; Pediatric Infectious Diseases, Medical Director, Infection Control and Prevention, MU Health Care

This presentation will increase the participant's knowledge on the importance of influenza vaccine during the COVID-19 pandemic. It will provide an overview of the recommendations for who should receive an influenza vaccine, what influenza strains are covered in the current vaccine and benefits of receiving the flu vaccination. This webinar is recommended for all immunization providers or any healthcare provider or students interested in learning more about influenza vaccination.

JANUARY 21, 2021

COVID-19 Vaccine 12 - 1 p.m.

Kevin Ault MD, Professor, Department of Obstetrics and Gynecology, University of Kansas School of Medicine, Kansas City, KS.

This presentation will increase the participant's knowledge regarding the new COVID 19 available vaccines

including current recommendations regarding age at vaccination, number of doses, side effects, precautions and contraindications to vaccination, safety and efficacy. This webinar is recommended for all health care providers or students wishing to learn more about the COVID-19 vaccine.

APRIL 15, 2021

Vaccine Hesitancy 12 - 1 p.m.

Kenneth Haller, MD, Pediatrician, St. Louis University and SSM Health, St. Louis

This presentation will increase the participant's knowledge regarding vaccine hesitancy. It will include how to communicate the importance of childhood vaccination with parents

and how to deal with vaccine hesitant parents. This webinar will include beneficial scripting and scenarios for providers to use in their practice. It is recommended for all health care providers and clinic staff or students wishing to learn more about vaccine hesitancy.

Cost: FREE!
