1. Filter list based on the following:
 - a. Event
 - b. Date
2. Event Summary – total # of residents and walk-ins vaccinated by each vaccine event
3. Total Number Vaccinated – count of residents who have been vaccinated at your event(s), both scheduled and walk-ins
4. Total Number of Scheduled Patients Vaccinated – count of residents who scheduled an appointment for your event and were vaccinated
5. Total Number of Walk-Ins Vaccinated – count of residents who were processed as walk-ins and vaccinated
6. Vaccinated Patient Details
 - a. First Name
 - b. Last Name
 - c. Vaccination Progress
 - i. Started – received 1 dose (Moderna or Pfizer)
 - ii. Complete – received both doses of Moderna or Pfizer, or received 1 dose of Johnson & Johnson
 - d. Primary Dose Status
 - i. Complete – received first dose
 - ii. Not scheduled – received 1st vaccine outside of the Navigator
 - e. Booster Dose Status
 - i. Complete – fully vaccinated
 - ii. N/A – has not scheduled booster appointment yet
7. Export – Download a CSV for patient-specific data collected during the vaccination appointment (i.e., demographic, contact, vaccination, etc.)
